Grid Department - May 2010

ES&H?

Any ES&H issues?.

FY2011/FY2012 Budget

FY2011/12 budget planning process is mostly completed.

- Not all priority 1 requests were funded.
- Travel was not funded at the requested level.
- ProCard and miscellaneous purchases also cut.

There may be a little more work on budget allocations in the next few weeks...

We have been directed to proceed to FermiCloud Phase 2 – Hosting of production services in FermiCloud.

- Will require acquisition of additional systems for FermiCloud.
- Funding for these systems will be coming from the people requesting systems to host services.

Department Lunch
